Air Filter

Make: Hyundai Model: Santa Fe Sport/ Santa Fe Year: 17-20 Engine: L4-2.0L(t)

1. Open the air filter access panel. Rotate the locking tabs to unlock position; and pull out the stock filter.

2. Pop out the rods from stock air filter, you will need these for the installation of the aFe air filter. Please note, the rods are left and right specific.

3. Slide aFe air filter into the airbox.

4. Insert the rods with the tabs pointing in the unlock position under the outermost edge of the filter.

5. Rotate the tabs to the locked position as shown on air filter. Close the air filter access panel.
